About Me

An economics and finance student at the London School of Economics, with a passion for artificial intelligence and data analysis. My focus is on leveraging AI to optimize financial operations and investment strategies.

EDUCATIONAL

Jan, 2021 – Jan, 2025	**University of London** Economics and Finance
Dec, 2022 – Aug, 2023	**CIEE+ Google and Datacamp** Data Science Certificate

EXPERIENCE

Investment Portfolio Manager

Managed a significant investment portfolio in the equity markets of Brazil, Chile, and the United States, leveraging data analysis and AI skills to optimize asset allocation and enhance risk-adjusted returns.

Data Analyst (Academic Project)

Collaborated on a prominent academic project, implementing a machine learning model to predict stock market behavior. The outcomes of this project were published in a reputable academic conference.
